

Enhancing Your Experience with Transit Windsor

Transit Windsor is pleased to announce a number of significant improvements to the way we provide service. These changes will result in a more efficient and safer user-friendly system that customers will rely on to greatly enhance their experience with Transit Windsor.

BUS STOP TEXT MESSAGING Unique bus stop ID codes on each bus stop sign will allow passengers to find out when a bus is due to arrive at that specific stop. Simply type in 88881 into your smart phone and then enter the ID stop located at the top right hand corner of the bus sign.

REAL-TIME PASSENGER INFORMATION Transit Windsor's new vehicle tracking will allow passengers real-time access, via mobile device or internet, to routes, schedules and maps. <http://windsor.mytransitride.com> or download the apps.  

AUTOMATED STOP ANNOUNCEMENTS Buses are outfitted with automated voice announcements that will alert passengers to their next stop. In addition to voice announcements, a visual display board on each bus, will display the same information.

SECURITY CAMERAS All buses are outfitted with multiple security cameras to enhance the security and safety for both our passengers and drivers.

INTERACTIVE VOICE RESPONSE SYSTEM (AUTOMATED ATTENDANT SYSTEM)

Similar to Bus Stop Text Messaging, this feature will allow our passengers to interact with our system through the use of voice tones and keypads on a phone to receive real-time information.

PLAN YOUR TRIP ON YOUR SMARTPHONE!

Download the **FREE** Google Maps mobile application using the Google Trip Planner on our schedules and maps page.

or Download the **FREE** Transit App
